THE RIGHT WAY TO INVEST

Portfolio Manager: Rajeev Bhaman, CFA

**Average Annual Total Returns
For the Periods Ended 12/31/13**

	1-Year	5-Year	10-Year
Non-Service Shares	27.31%	18.07%	8.87%
Service Shares	26.99%	17.77%	8.60%
Class 3 Shares	27.34%	18.07%	8.87%
			Since Inception (5/3/04)
Class 4 Shares	27.01%	17.78%	8.68%

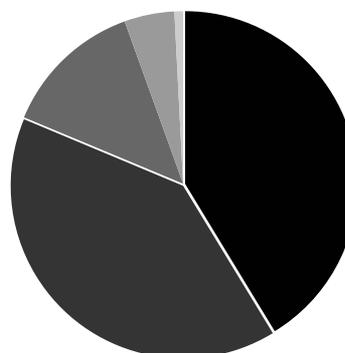

Performance data quoted represents past performance, which does not guarantee future results. *The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, call us at 1.800.988.8287. The Fund's total returns should not be expected to be the same as the returns of other funds, whether or not both funds have the same portfolio managers and/or similar names. The Fund's total returns include changes in share price and reinvested distributions but do not include the charges associated with the separate account products that offer this Fund. Such performance would have been lower if such charges were taken into account.*

- Latin America—4.7%
- Emerging Europe—0.8%

Portfolio holdings and allocations are subject to change. Percentages are as of December 31, 2013, and are based on the total market value of investments.

Fund Performance Discussion

The Fund's Non-Service shares produced a total return of 27.31% during the one-year reporting period ended December 31, 2013, outperforming the MSCI All Country World Index (the "Index"), which returned 22.80% over the same period. Every sector made a positive contribution to the Fund's absolute performance; meaningful contributions came from holdings in the information technology, health care, industrials and consumer discretionary sectors. The Fund also outperformed the MSCI World Index, which returned 26.68%. The Fund changed its benchmark from the MSCI World Index to the MSCI All Country World Index, which it believes is a more appropriate measure of the Fund's opportunity set.

MARKET OVERVIEW

Global equities, especially those in the developed markets, delivered strong performance in 2013. Accommodative monetary policies on the part of central banks in the U.S., Europe and Japan, combined with supportive equity valuations relative to bonds, have been instrumental in this performance. Signs that the world's largest economy, the U.S., was on the mend, demonstrated by rising house prices, also helped sentiment towards stocks. Mid-year, comments from the Federal Reserve (the "Fed") suggesting that the aggressive quantitative easing ("QE") policy would be "tapered" in the foreseeable future, led to significant sell-offs in both stocks and bonds. However, market conditions generally stabilized over the summer of 2013. While the Fed refrained from reducing its monthly bond purchases in September, in December, the Central Bank announced that it would reduce its monthly bond purchases by \$10 billion, from \$85 billion to \$75 billion, starting in January 2014. The Fed also announced that it would continue to hold short-term interest rates at very low levels until unemployment in the United States subsided below 6.5%. This was lower than its earlier 7% target. Emerging markets equities had mixed results, with inflation concerns in a variety of markets, slower-than-expected growth and policy orientations toward a more redistributive stance hurting performance. A further recognition that emerging markets have greater structural volatility than the developed world was evidenced in a reduction in price-earnings ratios.

Many concerns still abound, as they always do. Worries around Europe, the fragility of the recovery in the U.S., the potential success or lack thereof of Prime Minister Shinzo Abe's stimulus policies in Japan (commonly referred to as Abenomics), and a permanent slowdown in China's growth are all top of mind currently. Our focus remains on the long term. While temporary perturbations in currency markets or asset markets may lead others to reconsider their investment stances, we remain solidly concentrated on the characteristics and trends that we believe allow our companies to thrive in a myriad of environments. As long as the economics of their businesses are robust and the price we are paying for them undervalues current earnings and significantly discounts future prospects, we are undisturbed.

TOP INDIVIDUAL CONTRIBUTORS

The top contributors to performance this period were Airbus Group NV, Google, Inc., The Walt Disney Co. and WellPoint, Inc. Airbus Group was formerly known as EADS, European Aeronautic Defence & Space Co. In July, the company changed its name to Airbus, which is also its main and by far most profitable product. The market for larger airplanes above 150 seats is a duopoly comprising Boeing and Airbus. Persistently high fuel prices combined with the increase in travel demand from the emerging markets makes for a good environment for growth in new, more fuel efficient, aircraft sales. Airbus has been very successful in driving orders for its new-engined A-320XLR aircraft and its larger A-350 aircraft. In addition, management moved to meaningfully reduce exposure to the defense sector, announcing that it will be closing defense equipment production facilities and retiring and reassigning staff to the more profitable civilian business. The market reacted favorably to this strategy.

Google is the world's most prevalent Internet search engine. When the company announced third-quarter earnings, investors reacted very positively, sending the stock higher. Revenue growth was strong, volumes increased and margins widened. Google continues to benefit from its market dominance in search and continues to explore new applications.

Walt Disney produces movies, television programs, musical recordings, books, magazines, and merchandise for entertainment and education. It also operates distribution channels such as television networks, theme parks, hotels, cruise lines, retail stores and classrooms. In our opinion, this company has no peer. It has unique, iconic intellectual property assets, many channels through which to monetize them and high optionality potential to create more of both. The company's major investments in a new cruise ship and multiple amusement park upgrades in 2012 have started to pay off in 2013. In addition, the stock performed well as investors focused on the value of content in the broadcast and internet segments of the consumer discretionary sector.

WellPoint is a North American health insurance company. The early concern that the Patient Protection and Affordable Care Act (also known as "Obamacare") would supplant the private insurance market has not come to pass. Moreover, in a consolidating industry, WellPoint's scale and cost advantage we believe should enable it to be one of the few survivors. Buying power is ever more important given the passing of Obamacare. And, with baby boomers entering the age of 65 and over, we believe WellPoint's revenues should increase, as that demographic has higher premiums.

TOP INDIVIDUAL DETRACTORS

The most significant detractors from performance this period were Fusion-io, Inc., DLF Ltd. and Technip SA. Fusion-io produces flash-enabled server accelerator cards, which allow servers to better process information in real-time. The company also has a unique software portfolio that may obviate the traditional disk array model for storage. The stock experienced volatility due partly to a management transition. We believe that the data storage market will increasingly move toward solid state technology and that Fusion-io's intellectual property in the area is a competitive advantage. DLF is the largest and highest-quality real estate developer in the National Capital Region (NCR) of India. Tightening monetary policy and the weaker Indian Rupee have served to hurt near-term real estate demand. Over the longer term, demand for housing outstrips supply by a long way, given the various restrictions and hurdles to property development in the area. DLF's assets are unmatched in location and quality and they are a preferred developer at the high end in the Delhi area. We believe that this makes for an attractive business that is now available at an even better price.

Technip is a niche supplier of critical parts and services to the oil and gas industry. It is one of the three world leaders in underwater construction of oil and gas production facilities. It is also the world's largest manufacturer of flexible pipe and the world leader in the liquefaction of natural gas. During the reporting period, Technip reduced margin guidance for its subsea segment for 2014. In addition, one of its two major competitors in the subsea construction field announced disappointing earnings on the back of customer disputes. Both announcements affected Technip's share price negatively. In our opinion, Technip is the best-in-class supplier of critical niche services to key areas of the oil and gas industry and we believe it is poised to benefit from the world's continuing demand for energy.

STRATEGY & OUTLOOK

Regardless of whether we are in a fast or a slow growth world, we believe the companies in the Fund have the potential to grow above the general rate of the economies in which they operate by virtue of the secular currents driving them and their advantages globally. We have a long-term investment horizon and build the portfolio from the bottom up, focusing on businesses advantaged by long-term trends. We invest in companies that we believe are capable of producing solid and sustainable growth through the business cycle, that have made strong returns on invested capital, and that demonstrate good cash flow generation characteristics. We are patient investors and we aim to wait for those companies to be out of favor so they are reasonably priced when we buy.

As we enter 2014, most developed market equity valuations look reasonable to us, despite their recent strong performance, and emerging market valuations are becoming more so. There is still a significant amount of money sitting in bank accounts throughout the world. Developed equity markets may continue to benefit from the net inflows that began last year. Emerging equity markets may resume their recovery that began in the middle of last year. Alternatively, profit taking and risk aversion could affect markets negatively.

We simply cannot predict investor sentiment and market movements. That is why we focus on bottom-up, long-term stock selection. Our experience leads us to believe that longer-term outperformers will continue to be high quality companies within industries that are being driven by secular growth trends and that have the franchise strength, dominant market position and financial flexibility to profit from those growth opportunities. These companies also tend to have management commitment to apply those profits to the benefit of shareholders.

Investors should consider the Fund's investment objective, risks, charges and expenses carefully before investing. The Fund's prospectus and summary prospectus contain this and other information about the Fund, and may be obtained by asking your financial advisor or calling us at 1.800.988.8287. Read prospectuses and summary prospectuses carefully before investing.

Total returns include changes in share price and reinvestment of dividends and capital gains distributions in a hypothetical investment for the periods shown.

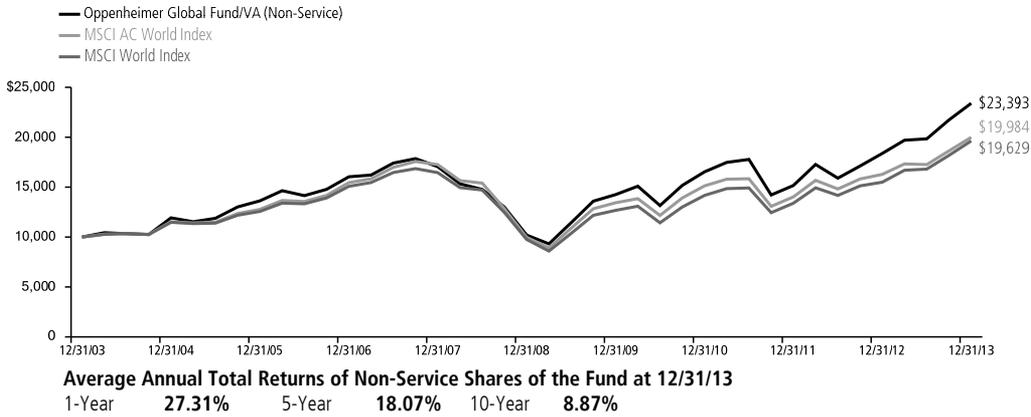

The Fund's investment strategy and focus can change over time. The mention of specific fund holdings does not constitute a recommendation by OppenheimerFunds, Inc. or its affiliates.

Shares of Oppenheimer funds are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including the possible loss of the principal amount invested.

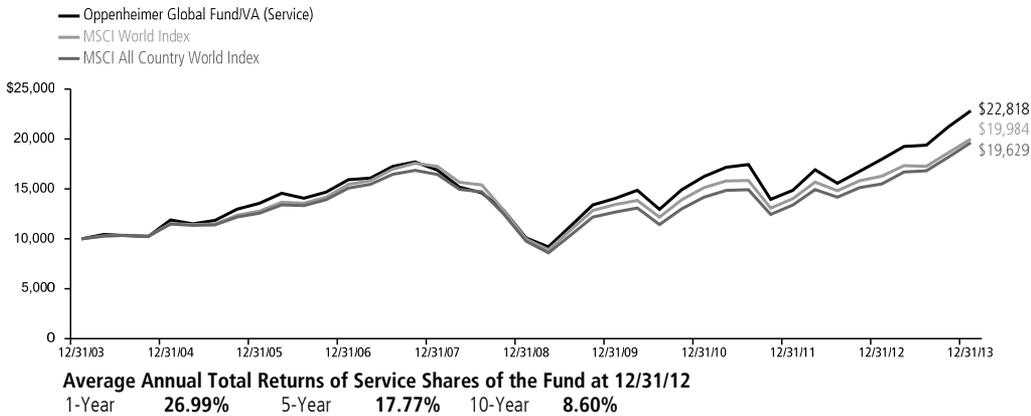

Comparing the Fund's Performance to the Market. The graphs that follow show the performance of a hypothetical \$10,000 investment in each share class of the Fund held until December 31, 2013. In the case of Non-Service shares, Service shares and Class 3 shares, performance is measured over a ten-fiscal-year period. In the case of Class 4 shares, performance is measured from inception of the class on May 3, 2004. Performance information does not reflect charges that apply to separate accounts investing in the Fund. If these charges were taken into account, performance would be lower. The graphs assume that all dividends and capital gains distributions were reinvested in additional shares.

The Fund's performance is compared to the performance of the MSCI All Country World Index, a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets and the MSCI World Index, an index of issuers listed on the stock exchanges of foreign countries and the United States. It is widely recognized as a measure of global stock market performance. The Fund has changed its benchmark from the MSCI World Index to the MSCI All Country World Index, which it believes is a more appropriate measure of the Fund's performance. Indices are unmanaged and cannot be purchased directly by investors. Index performance includes reinvestment of income, but does not reflect transaction costs, fees, expenses or taxes. Index performance is shown for illustrative purposes only as a benchmark for the Fund's performance, and does not predict or depict performance of the Fund. The Fund's performance reflects the effects of the Fund's business and operating expenses.

Performance data quoted represents past performance, which does not guarantee future results. *The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, call us at 1.800.988.8287. The Fund's total returns should not be expected to be the same as the returns of other funds, whether or not both funds have the same portfolio managers and/or similar names. The Fund's total returns include changes in share price and reinvested distributions but do not include the charges associated with the separate account products that offer this Fund. Such performance would have been lower if such charges were taken into account.*

Fund Expenses

Fund Expenses. As a shareholder of the Fund, you incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees; distribution and service fees; and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples are based on an investment of \$1,000.00 invested at the beginning of the period and held for the entire 6-month period ended December 31, 2013.

Actual Expenses. The first section of the table provides information about actual account values and actual expenses. You may use the information in this section for the class of shares you hold, together with the amount you invested, to estimate the expense that you paid over the period. Simply divide your account value by \$1,000.00 (for example, an \$8,600.00 account value divided by \$1,000.00 = 8.60), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes.

The second section of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio for each class of shares, and an assumed rate of return of 5% per year for each class before expenses, which is not the actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any charges associated with the separate accounts that offer this Fund. Therefore, the "hypothetical" lines of the table are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these separate account charges were included your costs would have been higher.

Actual	Beginning Account Value July 1, 2013	Ending Account Value December 31, 2013	Expenses Paid During 6 Months Ended December 31, 2013
Non-Service shares	\$ 1,000.00	\$ 1,179.20	\$ 4.24
Service shares	1,000.00	1,177.50	5.67
Class 3 shares	1,000.00	1,179.10	4.24
Class 4 shares	1,000.00	1,178.00	5.67
Hypothetical (5% return before expenses)			
Non-Service shares	1,000.00	1,021.32	3.93
Service shares	1,000.00	1,020.01	5.26
Class 3 shares	1,000.00	1,021.32	3.93
Class 4 shares	1,000.00	1,020.01	5.26

Expenses are equal to the Fund's annualized expense ratio for that class, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period). Those annualized expense ratios, excluding indirect expenses from affiliated funds, based on the 6-month period ended December 31, 2013 are as follows:

Class	Expense Ratios
Non-Service shares	0.77%
Service shares	1.03
Class 3 shares	0.77
Class 4 shares	1.03

The expense ratios reflect contractual waivers and/or reimbursements of expenses by the Fund's Manager. Some of these undertakings may be modified or terminated at any time, unless approved by the Board of Trustees. The "Financial Highlights" tables in the Fund's financial statements, included in this report, also show the gross expense ratios, without such waivers or reimbursements and reduction to custodian expenses, if applicable.

1. Non-income producing security.
2. Is or was an affiliate, as defined in the Investment Company Act of 1940, at or during the period ended December 31, 2013, by virtue of the Fund owning at least 5% of the voting securities of the issuer or as a result of the Fund and the issuer having the same investment adviser. Transactions during the period in which the issuer was an affiliate are as follows:

	Shares December 31, 2012	Gross Additions	Gross Reductions	Shares December 31, 2013
Oppenheimer Institutional Money Market Fund, Cl. E	30,612,139	303,791,242	325,377,004	9,026,377
			Value	Income
Oppenheimer Institutional Money Market Fund, Cl. E		\$	9,026,377	\$ 14,612

3. Rate shown is the 7-day yield as of December 31, 2013.

Distribution of investments representing geographic holdings, as a percentage of total investments at value, is as follows:

Geographic Holdings	Value	Percent
United States	\$ 1,190,795,307	41.3 %
Germany	331,504,989	11.4
Japan	267,749,165	9.3
France	167,448,205	5.8
Switzerland	151,025,053	5.3
Sweden	131,265,630	4.5
Spain	116,227,275	3.9

STATEMENT OF ASSETS AND LIABILITIES

December 31, 2013

Assets	
Investments, at value—see accompanying statement of investments:	
Unaffiliated companies (cost \$1,560,592,108)	\$ 2,892,596,149
Affiliated companies (cost \$9,026,377)	9,026,377
	<u>2,901,622,526</u>
Receivables and other assets:	
Dividends	3,284,998
Shares of beneficial interest sold	1,024,468
Other	82,565
Total assets	<u>2,906,014,557</u>
Liabilities	
Payables and other liabilities:	
Shares of beneficial interest redeemed	3,717,703
Distribution and service plan fees	280,681
Transfer and shareholder servicing agent fees	240,186
Trustees' compensation	81,254
Shareholder communications	78,458
Other	97,219
Total liabilities	<u>4,495,501</u>
Net Assets	\$ 2,901,519,056
Composition of Net Assets	
Par value of shares of beneficial interest	\$ 71,279
Additional paid-in capital	1,439,864,710
Accumulated net investment income	27,585,632
Accumulated net realized gain on investments and foreign currency transactions	101,909,401
Net unrealized appreciation on investments and translation of assets and liabilities denominated in foreign currencies	1,332,088,034
Net Assets	\$ 2,901,519,056
Net Asset Value Per Share	
Non-Service Shares:	
Net asset value, redemption price (excludes applicable contingent deferred sales charge) and offering price per share (based on net assets of \$1,397,025,996 and 34,190,165 shares of beneficial interest outstanding)	\$40.86
Service Shares:	
Net asset value, redemption price (excludes applicable contingent deferred sales charge) and offering price per share (based on net assets of \$1,216,285,104 and 30,050,867 shares of beneficial interest outstanding)	\$40.47
Class 3 Shares:	
Net asset value, redemption price (excludes applicable contingent deferred sales charge) and offering price per share (based on net assets of \$192,063,097 and 4,667,230 shares of beneficial interest outstanding)	\$41.15
Class 4 Shares:	
Net asset value, redemption price (excludes applicable contingent deferred sales charge) and offering price per share (based on net assets of \$96,144,859 and 2,370,712 shares of beneficial interest outstanding)	\$40.56

See accompanying Notes to Financial Statements.

STATEMENT OF OPERATIONS

For the Year Ended December 31, 2013

Investment Income	
Dividends:	
Unaffiliated companies (net of foreign withholding taxes of \$4,601,492)	\$ 52,525,112
Affiliated companies	14,612
Interest	175
Total investment income	52,539,899
Expenses	
Management fees	17,440,275
Distribution and service plan fees:	
Service shares	2,950,352
Class 4 shares	208,044
Transfer and shareholder servicing agent fees:	
Non-Service shares	1,333,132
Service shares	1,173,386
Class 3 shares	177,410
Class 4 shares	82,785
Shareholder communications:	
Non-Service shares	148,453
Service shares	130,036
Class 3 shares	20,006
Class 4 shares	9,562
Custodian fees and expenses	268,916
Trustees' compensation	65,465
Other	387,143
Total expenses	24,394,965
Less waivers and reimbursements of expenses	(12,585)
Net expenses	24,382,380
Net Investment Income	28,157,519
Realized and Unrealized Gain (Loss)	
Net realized gain (loss) on:	
Investments from unaffiliated companies (net of foreign capital gains tax of \$142,074)	152,998,525
Foreign currency transactions	(262,824)
Net realized gain	152,735,701
Net change in unrealized appreciation/depreciation on:	
Investments (net of foreign capital gains tax of \$57,402)	498,480,953
Translation of assets and liabilities denominated in foreign currencies	(15,009,861)
Net change in unrealized appreciation/depreciation	483,471,092
Net Increase in Net Assets Resulting from Operations	\$ 664,364,312

See accompanying Notes to Financial Statements.

STATEMENTS OF CHANGES IN NET ASSETS

	Year Ended December 31, 2013	Year Ended December 31, 2012
Operations

1. December 30, 2011 represents the last business day of the Fund's reporting period.

2. Per share amounts calculated based on the average shares outstanding during the period.

3. Assumes an initial investment on the business day before the first day of the fiscal period, with all dividends and distributions reinvested in additional shares on the reinvestment date, and redemption at the net asset value calculated on the last business day of the fiscal period. Total returns are not annualized for periods less than one full year. Total return information does not reflect expenses that apply at the separate account level or to related insurance products. Inclusion of these charges would reduce the total return figures for all periods shown. Returns do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares.

4. Annualized for periods less than one full year.

5. Total expenses including indirect expenses from affiliated fund were as follows:

Year Ended December 31, 2013	0.77%
Year Ended December 31, 2012	0.76%
Year Ended December 30, 2011	0.76%
Year Ended December 31, 2010	0.76%
Year Ended December 31, 2009	0.75%

See accompanying Notes to Financial Statements.

1. Significant Accounting Policies

Oppenheimer Global Fund/VA (the "Fund"), formerly Oppenheimer Global Securities Fund/VA, a separate series of Oppenheimer Variable Account Funds, is a diversified open-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's investment objective is to seek capital appreciation. The Fund's investment adviser is OFI Global Asset Management, Inc. ("OFI Global" or the "Manager"), a wholly-owned subsidiary of OppenheimerFunds, Inc. ("OFI" or the "Sub-Adviser"). The Manager has entered into a sub-advisory agreement with OFI. Shares of the Fund are sold only to separate accounts of life insurance companies.

The Fund offers Non-Service, Service, Class 3 and Class 4 shares. All classes are sold at their offering price, which is the net asset value per share, to separate investment accounts of participating insurance companies as an underlying investment for variable life insurance policies, variable annuity contracts or other investment products. The classes of shares being designated as Service shares and Class 4 shares are subject to a distribution and service plan. All classes of shares have identical rights and voting privileges with respect to the Fund in general and exclusive voting rights on matters that affect that class alone. Earnings, net assets and net asset value per share may differ due to each class having its own expenses, such as transfer and shareholder servicing agent fees and shareholder communications, directly attributable to that class. The Fund assesses a 1% fee on the proceeds of Class 3 and Class 4 shares that are redeemed (either by selling or exchanging to another Oppenheimer fund or other investment option offered through your variable life insurance or variable annuity contract) within 60 days of their purchase. The fee, which is retained by the Fund, is accounted for as an addition to paid-in capital.

The following is a summary of significant accounting policies consistently followed by the Fund.

Investment in Oppenheimer Institutional Money Market Fund. The Fund is permitted to invest daily available cash balances in an affiliated money market fund. The Fund may invest the available cash in Class E shares of Oppenheimer Institutional Money Market Fund ("IMMF") to seek current income while preserving liquidity. IMMF is a registered open-end management investment company, regulated as a money market fund under the Investment Company Act of 1940, as amended. The Manager is the investment adviser of IMMF, and the Sub-Adviser provides investment and related advisory services to IMMF. When applicable, the Fund's investment in IMMF is included in the Statement of Investments. Shares of IMMF are valued at their net asset value per share. As a shareholder, the Fund is subject to its proportional share of IMMF's Class E expenses, including its management fee. The Manager will waive fees and/or reimburse Fund expenses in an amount equal to the indirect management fees incurred through the Fund's investment in IMMF.

Foreign Currency Translation. The Fund's accounting records are maintained in U.S. dollars. The values of securities denominated in foreign currencies and amounts related to the purchase and sale of foreign securities and foreign investment income are translated into U.S. dollars as of the close of the New York Stock Exchange (the "Exchange"), normally 4:00 P.M. Eastern time, on each day the Exchange is open for trading. Foreign exchange rates may be valued primarily using a reliable bank, dealer or service authorized by the Board of Trustees.

Reported net realized gains and losses from foreign currency transactions arise from sales of portfolio securities, sales and maturities of short-term securities, sales of foreign currencies, exchange rate fluctuations between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized appreciation and depreciation on the translation of assets and liabilities denominated in foreign currencies arise from changes in the values of assets and liabilities, including investments in securities at fiscal period end, resulting from changes in exchange rates.

The effect of changes in foreign currency exchange rates on investments is separately identified from the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations.

Allocation of Income, Expenses, Gains and Losses. Income, expenses (other than those attributable to a specific class), gains and losses are allocated on a daily basis to each class of shares based upon the relative proportion of net assets represented by such class. Operating expenses directly attributable to a specific class are charged against the operations of that class.

Federal Taxes. The Fund intends to comply with provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its investment company taxable income, including any net realized gain on investments not offset by capital loss carryforwards, if any, to shareholders. Therefore, no federal income or excise tax provision is required. The Fund files income tax returns in U.S. federal and applicable state jurisdictions. The statute of limitations on the Fund's tax return filings generally remain open for the three preceding fiscal reporting period ends.

The tax components of capital shown in the following table represent distribution requirements the Fund must satisfy under the income tax regulations, losses the Fund may be able to offset against income and gains realized in future years and unrealized appreciation or depreciation of securities and other investments for federal income tax purposes.

Undistributed Net Investment Income	Undistributed Long-Term Gain	Accumulated Loss Carryforward ^{1,2}	Net Unrealized Appreciation Based on cost of Securities and Other Investments for Federal Income Tax Purposes
\$27,739,869	\$126,059,475	\$—	\$1,307,937,804

1. Significant Accounting Policies (Continued)

1. During the fiscal year ended December 31, 2013, the Fund utilized \$9,934,353 of capital loss carryforward to offset capital gains realized in that fiscal year.
2. During the fiscal year ended December 31, 2012, the Fund utilized \$9,221,730 of capital loss carryforward to offset capital gains realized in that fiscal year.

Net investment income (loss) and net realized gain (loss) may differ for financial statement and tax purposes. The character of dividends and distributions made during the fiscal year from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. Also, due to timing of dividends and distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or net realized gain was recorded by the Fund.

Accordingly, the following amounts have been reclassified for December 31, 2013. Net assets of the Fund were unaffected by the reclassifications.

Increase to Paid-in Capital	Reduction to Accumulated Net Investment Income	Reduction to Accumulated Net Realized Gain on Investments ³
\$13,166,329	\$404,898	\$12,761,431

3. \$13,166,329, all of which was long-term capital gain, was distributed in connection with Fund share redemptions.

The tax character of distributions paid during the years ended December 31, 2013 and December 31, 2012 was as follows:

	Year Ended December 31, 2013	Year Ended December 31, 2012
Distributions paid from:		
Ordinary income	\$ 35,685,115	\$ 51,256,200

The aggregate cost of securities and other investments and the composition of unrealized appreciation and depreciation of securities and other investments for federal income tax purposes as of December 31, 2013 are noted in the following table. The primary difference between book and tax appreciation or depreciation of securities and other investments, if applicable, is attributable to the tax deferral of losses or tax realization of financial statement unrealized gain or loss.

Federal tax cost of securities	\$ 1,593,768,715
Gross unrealized appreciation	\$ 1,341,549,138
Gross unrealized depreciation	(33,611,334)
Net unrealized appreciation	\$ 1,307,937,804

Certain foreign countries impose a tax on capital gains which is accrued by the Fund based on unrealized appreciation, if any, on affected securities. The tax is paid when the gain is realized.

Trustees' Compensation. The Board of Trustees has adopted a compensation deferral plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from the Fund. For purposes of determining the amount owed to the Trustee under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of the Fund or in other Oppenheimer funds selected by the Trustee. The Fund purchases shares of the funds selected for deferral by the Trustee in amounts equal to his or her deemed investment, resulting in a Fund asset equal to the deferred compensation liability. Such assets are included as a component of "Other" within the asset section of the Statement of Assets and Liabilities. Deferral of trustees' fees under the plan will not affect the net assets of the Fund, and will not materially affect the Fund's assets, liabilities or net investment income per share. Amounts will be deferred until distributed in accordance with the compensation deferral plan.

Dividends and Distributions to Shareholders. Dividends and distributions to shareholders, which are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles, are recorded on the ex-dividend date. Income and capital gain distributions, if any, are declared and paid annually or at other times as deemed necessary by the Manager.

Investment Income. Dividend income is recorded on the ex-dividend date or upon ex-dividend notification in the case of certain foreign dividends where the ex-dividend date may have passed. Non-cash dividends included in dividend income, if any, are recorded at the fair market value of the securities received. Interest income is recognized on an accrual basis. Discount and premium, which are included in interest income on the Statement of Operations, are amortized or accreted daily.

Custodian Fees. "Custodian fees and expenses" in the Statement of Operations may include interest expense incurred by the Fund on any cash overdrafts of its custodian account during the period. Such cash overdrafts may result from the effects of failed trades in portfolio securities and from cash outflows resulting from unanticipated shareholder redemption activity. The Fund pays interest to its custodian on such cash overdrafts, to the extent they are not offset by positive cash balances maintained by the Fund, at a rate equal to the Federal Funds Rate plus 0.50%. The "Reduction to custodian expenses" line item, if applicable, represents earnings on cash balances maintained by the Fund during the period. Such interest expense and other custodian fees may be paid with these earnings.

1. Significant Accounting Policies (Continued)

Security Transactions. Security transactions are recorded on the trade date. Realized gains and losses on securities sold are determined on the basis of identified cost.

Indemnifications. The Fund's organizational documents provide current and former trustees and officers with a limited indemnification against liabilities arising in connection with the performance of their duties to the Fund. In the normal course of business, the Fund may also enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Fund. The risk of material loss from such claims is considered remote.

Other. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

2. Securities Valuation

The Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange (the "Exchange"), normally 4:00 P.M. Eastern time, on each day the Exchange is open for trading.

The Fund's Board has adopted procedures for the valuation of the Fund's securities and has delegated the day-to-day responsibility for valuation determinations under those procedures to the Manager. The Manager has established a Valuation Committee which is responsible for determining a "fair valuation" for any security for which market quotations are not "readily available." The Valuation Committee's fair valuation determinations are subject to review, approval and ratification by the Fund's Board at its next regularly scheduled meeting covering the calendar quarter in which the fair valuation was determined.

Valuation Methods and Inputs

Securities are valued using unadjusted quoted market prices, when available, as supplied primarily by third party pricing services or dealers.

The following methodologies are used to determine the market value or the fair value of the types of securities described below:

Securities traded on a registered U.S. securities exchange (including exchange-traded derivatives other than futures and futures options) are valued based on the last sale price of the security reported on the principal exchange on which it is traded, prior to the time when the Fund's assets are valued. In the absence of a sale, the security is valued at the last sale price on the prior trading day, if it is within the spread of the current day's closing "bid" and "asked" prices, and if not, at the current day's closing bid price. A security of a foreign issuer traded on a foreign exchange, but not listed on a registered U.S. securities exchange, is valued based on the last sale price on the principal exchange on which the security is traded, as identified by the third party pricing service used by the Manager, prior to the time when the Fund's assets are valued. If the last sale price is unavailable, the security is valued at the most recent official closing price on the principal exchange on which it is traded. If the last sales price or official closing price for a foreign security is not available, the security is valued at the mean between the bid and asked price per the exchange or, if not available from the exchange, obtained from two dealers. If bid and asked prices are not available from either the exchange or two dealers, the security is valued by using one of the following methodologies (listed in order of priority); (1) using a bid from the exchange, (2) the mean between the bid and asked price as provided by a single dealer, or (3) a bid from a single dealer.

Shares of a registered investment company that are not traded on an exchange are valued at that investment company's net asset value per share.

Corporate and government debt securities (of U.S. or foreign issuers) and municipal debt securities, event-linked bonds, loans, mortgage-backed securities, collateralized mortgage obligations, and asset-backed securities are valued at the mean between the "bid" and "asked" prices utilizing evaluated prices obtained from third party pricing services or broker-dealers who may use matrix pricing methods to determine the evaluated prices.

Short-term money market type debt securities with a remaining maturity of sixty days or less are valued at cost adjusted by the amortization of discount or premium to maturity (amortized cost), which approximates market value. Short-term debt securities with a remaining maturity in excess of sixty days are valued at the mean between the "bid" and "asked" prices utilizing evaluated prices obtained from third party pricing services or broker-dealers.

A description of the standard inputs that may generally be considered by the third party pricing vendors in determining their evaluated prices is provided below.

Security Type	Standard inputs generally considered by third-party pricing vendors
Corporate debt, government debt, municipal, mortgage-backed and asset-backed securities	Reported trade data, broker-dealer price quotations, benchmark yields, issuer spreads on comparable securities, the credit quality, yield, maturity, and other appropriate factors.
Loans	Information obtained from market participants regarding reported trade data and broker-dealer price quotations.
Event-linked bonds	Information obtained from market participants regarding reported trade data and broker-dealer price quotations.

If a market value or price cannot be determined for a security using the methodologies described above, or if, in the "good faith" opinion of the Manager, the market value or price obtained does not constitute a "readily available market quotation," or a significant event has occurred that would

2. Securities Valuation (Continued)

materially affect the value of the security the security is fair valued either (i) by a standardized fair valuation methodology applicable to the security type or the significant event as previously approved by the Valuation Committee and the Fund's Board or (ii) as determined in good faith by the Manager's Valuation Committee. The Valuation Committee considers all relevant facts that are reasonably available, through either public information or information available to the Manager, when determining the fair value of a security. Fair value determinations by the Manager are subject to review, approval and ratification by the Fund's Board at its next regularly scheduled meeting covering the calendar quarter in which the fair valuation was determined. Those fair valuation standardized methodologies include, but are not limited to, valuing securities at the last sale price or initially at cost and subsequently adjusting the value based on: changes in company specific fundamentals, changes in an appropriate securities index, or changes in the value of similar securities which may be further adjusted for any discounts related to security-specific resale restrictions. When possible, such methodologies use observable market inputs such as unadjusted quoted prices of similar securities, observable interest rates, currency rates and yield curves. The methodologies used for valuing securities are not necessarily an indication of the risks associated with investing in those securities nor can it be assured that the Fund can obtain the fair value assigned to a security if it were to sell the security.

To assess the continuing appropriateness of security valuations, the Manager, or its third party service provider who is subject to oversight by the Manager, regularly compares prior day prices, prices on comparable securities, and sale prices to the current day prices and challenges those prices exceeding certain tolerance levels with the third party pricing service or broker source. For those securities valued by fair valuations, whether through a standardized fair valuation methodology or a fair valuation determination, the Valuation Committee reviews and affirms the reasonableness of the valuations based on such methodologies and fair valuation determinations on a regular basis after considering all relevant information that is reasonably available.

Classifications

Each investment asset or liability of the Fund is assigned a level at measurement date based on the significance and source of the inputs to its valuation. Various data inputs are used in determining the value of each of the Fund's investments as of the reporting period end. These data inputs are categorized in the following hierarchy under applicable financial accounting standards:

- 1) Level 1-unadjusted quoted prices in active markets for identical assets or liabilities (including securities actively traded on a securities exchange)
- 2) Level 2-inputs other than unadjusted quoted prices that are observable for the asset or liability (such as unadjusted quoted prices for similar assets and market corroborated inputs such as interest rates, prepayment speeds, credit risks, etc.)
- 3) Level 3-significant unobservable inputs (including the Manager's own judgments about assumptions that market participants would use in pricing the asset or liability).

The inputs used for valuing securities are not necessarily an indication of the risks associated with investing in those securities.

The table below categorizes amounts that are included in the Fund's Statement of Assets and Liabilities as of December 31, 2013 based on valuation input level:

	Level 1— Unadjusted Quoted Prices	Level 2— Other Significant Observable Inputs	Level 3— Significant Unobservable Inputs	Value
Assets Table				
Investments, at Value:

Currency contracts and forwards, if any, are reported at their unrealized appreciation/ depreciation at measurement date, which represents the change in the contract's value from trade date. Futures, if any, are reported at their variation margin at measurement date, which represents the amount due to/from the Fund at that date. All additional assets and liabilities included in the above table are reported at their market value at measurement date.

The table below shows the transfers between Level 1 and Level 2. The Fund's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

2. Securities Valuation (Continued)

Assets Table	Transfers out of Level 1*		Transfers into Level 2*	
Investments, at Value:				
Commons Stocks				
Consumer Discretionary	\$	(56,375,412)	\$	56,375,412

Sold	274,924	\$ 9,972,302	174,260	\$ 5,155,447
Dividends and/or distributions reinvested	67,712	2,430,857	122,145	3,444,499
Redeemed	(693,858)	(25,240,319) ¹	(1,004,527)	(30,086,839) ²
Net decrease	(351,222)	\$ (12,837,160)	(708,122)	\$ (21,486,893)
Class 4 Shares				
Sold	301,288	\$ 11,069,712	242,463	\$ 7,528,786
Dividends and/or distributions reinvested	26,919	953,729	48,074	1,338,372
Redeemed	(289,896)	(10,210,141) ¹	(469,722)	(13,722,649) ²
Net increase (decrease)	38,311	\$ 1,813,300	(179,185)	\$ (4,855,491)

1. Net of redemption fees of \$11,326 and \$4,748 for Class 3 and Class 4, respectively.

2. Net of redemption fees of \$7,643 and \$1,566 for Class 3 and Class 4, respectively.

4. Purchases and Sales of Securities

The aggregate cost of purchases and proceeds from sales of securities, other than short-term obligations and investments in IMMF, for the year ended December 31, 2013 were as follows:

	Purchases	Sales
Investment securities	\$300,155,456	\$644,137,886

5. Fees and Other Transactions with Affiliates

Management Fees. Under the investment advisory agreement, the Fund pays the Manager a management fee based on the daily net assets of the Fund at an annual rate as shown in the following table:

5. Fees and Other Transactions with Affiliates (Continued)

<u>Fee Schedule Through October 31, 2013</u>		<u>Fee Schedule Effective November 1, 2013</u>	
Up to \$200 million	0.75%	Up to \$200 million	0.75%
Next \$200 million	0.72	Next \$200 million	0.72
Next \$200 million	0.69	Next \$200 million	0.69
Next \$200 million	0.66	Next \$200 million	0.66
Over \$800 million	0.60	Next \$4.2 billion	0.60
		Over \$5 billion	0.58

Sub-Adviser Fees. The Manager has retained the Sub-Adviser to provide the day-to-day portfolio management of the Fund. Under the Sub-Advisory Agreement, the Manager pays the Sub-Adviser an annual fee in monthly installments, equal to a percentage of the investment management fee collected by the Manager from the Fund, which shall be calculated after any investment management fee waivers. The fee paid to the Sub-Adviser is paid by the Manager, not by the Fund.

Transfer Agent Fees. OFI Global (the "Transfer Agent") serves as the transfer and shareholder servicing agent for the Fund. Fees incurred by the Fund with respect to these services are detailed in the Statement of Operations.

Sub-Transfer Agent Fees. The Transfer Agent has retained Shareholder Services, Inc., a wholly-owned subsidiary of OFI (the "Sub-Transfer Agent"), to provide the day-to-day transfer agent and shareholder servicing of the Fund. Under the Sub-Transfer Agency Agreement, the Transfer Agent pays the Sub-Transfer Agent an annual fee in monthly installments, equal to a percentage of the transfer agent fee collected by the Transfer Agent from the Fund, which shall be calculated after any applicable fee waivers. The fee paid to the Sub-Transfer Agent is paid by the Transfer Agent, not by the Fund.

Distribution and Service Plan for Service Shares and Class 4 Shares. The Fund has adopted a Distribution and Service Plan (the "Plan") in accordance with Rule 12b-1 under the Investment Company Act of 1940 for Service shares and Class 4 shares to pay OppenheimerFunds Distributor, Inc. (the "Distributor"), for distribution related services, personal service and account maintenance for the Fund's Service shares and Class 4 shares. Under the Plan, payments are made periodically at an annual rate of 0.25% of the daily net assets of Service shares and Class 4 shares of the Fund. The Distributor currently uses all of those fees to compensate sponsors of the insurance product that offers Fund shares, for providing personal service and maintenance of accounts of their variable contract owners that hold Service shares and Class 4 shares. These fees are paid out of the Fund's assets on an on-going basis and increase operating expenses of the Service shares and Class 4 shares, which results in lower performance compared to the Fund's shares that are not subject to a service fee. Fees incurred by the Fund under the Plan are detailed in the Statement of Operations.

Waivers and Reimbursements of Expenses. The Manager has contractually agreed to limit the Fund's expenses after payments, waivers and/or reimbursements and reduction to custodian expenses, excluding expenses incurred directly or indirectly by the Fund as a result of investments in other investment companies, wholly-owned subsidiaries and pooled investment vehicles; so that those expenses, as percentages of daily net assets, will not exceed the annual rate of 1.00% for Non-Service and Class 3 shares and 1.25% for Service and Class 4 shares.

The Manager will waive fees and/or reimburse Fund expenses in an amount equal to the indirect management fees incurred through the Fund's investment in IMMF. During the year ended December 31, 2013, the Manager waived fees and/or reimbursed the Fund \$12,585 for IMMF management fees.

Some of these undertakings may be modified or terminated at any time; some may not be modified or terminated until after one year from the date of the current prospectus, as indicated therein.

6. Pending Litigation

Since 2009, seven class action lawsuits have been pending in the U.S. District Court for the District of Colorado against OppenheimerFunds, Inc. ("OFI"), OppenheimerFunds Distributor, Inc., the Fund's principal underwriter and distributor (the "Distributor"), and certain funds (but not including the Fund) advised by OFI Global Asset Management, Inc. and distributed by the Distributor (the "Defendant Funds"). The lawsuits also name as defendants certain officers and current and former trustees of the respective Defendant Funds. The lawsuits raise claims under federal securities law and allege, among other things, that the disclosure documents of the respective Defendant Funds contained misrepresentations and omissions and that the respective Defendant Funds' investment policies were not followed. The plaintiffs in these actions seek unspecified damages, equitable relief and awards of attorneys' fees and litigation expenses. The Defendant Funds' Boards of Trustees have also engaged counsel to represent the Funds and the present and former Independent Trustees named in those suits. On August 26, 2013, the parties in six of these lawsuits executed a memorandum of understanding setting forth the terms of proposed settlements of those actions. The proposed settlements are subject to a variety of contingencies, including the execution of settlement agreements, which will require preliminary and final approval by the court. The proposed settlements do not resolve a seventh outstanding lawsuit relating to Oppenheimer California Municipal Fund.

Other class action and individual lawsuits have been filed since 2008 in various state and federal courts against OFI and certain of its affiliates by investors seeking to recover investments they allegedly lost as a result of the "Ponzi" scheme run by Bernard L. Madoff and his firm, Bernard L. Madoff Investment Securities, LLC ("BLMIS"). Plaintiffs in these suits allege that they suffered losses as a result of their investments in several funds managed by an affiliate of OFI and assert a variety of claims, including breach of fiduciary duty, fraud, negligent misrepresentation, unjust enrichment, and violation of federal and state securities laws and regulations, among others. They seek unspecified damages, equitable relief and awards of attorneys' fees and litigation expenses. Neither the Distributor, nor any of the Oppenheimer mutual funds, their independent trustees or directors are named as defendants

6. Pending Litigation (Continued)

in these lawsuits. None of the Oppenheimer mutual funds invested in any funds or accounts managed by Madoff or BLMIS. On February 28, 2011, a stipulation of partial settlement of three groups of consolidated putative class action lawsuits relating to these matters was filed in the U.S. District Court for the Southern District of New York. On August 19, 2011, the court entered an order and final judgment approving the settlement as fair, reasonable and adequate. In September 2011, certain parties filed notices of appeal from the court's order approving the settlement. The settlement does not resolve other outstanding lawsuits against OFI and its affiliates relating to BLMIS.

On April 16, 2010, a lawsuit was filed in New York state court against (i) OFI, (ii) an affiliate of OFI and (iii) AAArdvark IV Funding Limited ("AAArdvark IV"), an entity advised by OFI's affiliate, in connection with investments made by the plaintiffs in AAArdvark IV. Plaintiffs allege breach of contract and common law fraud claims against the defendants and seek compensatory damages, costs and disbursements, including attorney fees. On April 11, 2013, the court granted defendants' motion for summary judgment, dismissing plaintiffs' fraud claim with prejudice and dismissing their contract claim without prejudice, and granted plaintiffs leave to replead their contract claim to assert a cause of action for specific performance within 30 days. On May 9, 2013, plaintiffs filed a notice of appeal from the court's dismissal order. On January 7, 2014, the appellate court dismissed the trial court's dismissal order. On July 15, 2011, a lawsuit was filed in New York state court against OFI, an affiliate of OFI and AAArdvark Funding Limited ("AAArdvark I"), an entity advised by OFI's affiliate, in connection with investments made by the plaintiffs in AAArdvark I. The complaint alleges breach of contract and common law fraud claims against the defendants and seeks compensatory damages, costs and disbursements, including attorney fees. On November 9, 2011, a lawsuit was filed in New York state court against OFI, an affiliate of OFI and AAArdvark XS Funding Limited ("AAArdvark XS"), an entity advised by OFI's affiliate, in connection with investments made by the plaintiffs in AAArdvark XS. The complaint alleged breach of contract against the defendants and sought compensatory damages, costs and disbursements, including attorney fees. On November 8, 2013, the parties filed a stipulation of discontinuance dismissing the lawsuit with prejudice.

OFI believes the lawsuits and appeals described above are without legal merit and, with the exception of actions it has settled, is defending against them vigorously. While it is premature to render any opinion as to the outcome in these lawsuits, or whether any costs that the Defendant Funds may bear in defending the suits might not be reimbursed by insurance, OFI believes that these suits should not impair the ability of OFI or the Distributor to perform their respective duties to the Fund, and that the outcome of all of the suits together should not have any material effect on the operations of any of the Oppenheimer mutual funds.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Oppenheimer Variable Account Funds:

We have audited the accompanying statement of assets and liabilities of Oppenheimer Global Fund/VA, formerly, Oppenheimer Global Securities Fund/VA (a separate series of Oppenheimer Variable Account Funds), including the statement of investments, as of December 31, 2013, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2013, by correspondence with the custodian and transfer agent. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Oppenheimer Global Fund/VA as of December 31, 2013, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

KPMG LLP

Denver, Colorado
February 14, 2014

FEDERAL INCOME TAX INFORMATION Unaudited

In early 2014, if applicable, shareholders of record received information regarding all dividends and distributions paid to them by the Fund during calendar year 2013.

Dividends, if any, paid by the Fund during the fiscal year ended December 31, 2013 which are not designated as capital gain distributions should be multiplied by the maximum amount allowable but not less than 43.38% to arrive at the amount eligible for the corporate dividend-received deduction.

The Fund has elected the application of Section 853 of the Internal Revenue Code to permit shareholders to take a federal income tax credit or deduction, at their option, on a per share basis. The maximum amount allowable but not less than \$4,558,675 of foreign income taxes were paid by the Fund during the fiscal year ended December 31, 2013. A separate notice will be mailed to each shareholder, which will reflect the proportionate share of such foreign taxes which must be treated by shareholders as gross income for federal income tax purposes.

Gross income of the maximum amount allowable but not less than \$27,253,326 was derived from sources within foreign countries or possessions of the United States.

The foregoing information is presented to assist shareholders in reporting distributions received from the Fund to the Internal Revenue Service. Because of the complexity of the federal regulations which may affect your individual tax return and the many variations in state and local tax regulations, we recommend that you consult your tax advisor for specific guidance.

BOARD APPROVAL OF THE FUND'S INVESTMENT ADVISORY AND SUB-ADVISORY AGREEMENTS

Unaudited

The Fund has entered into an investment advisory agreement with OFI Global Asset Management, Inc. ("OFI Global" or the "Adviser"), a wholly-owned subsidiary of OppenheimerFunds, Inc. ("OFI" or the "Sub-Adviser") ("OFI Global" and "OFI" together the "Managers") and OFI Global has entered into a sub-advisory agreement with OFI whereby OFI provides investment sub-advisory services to the Fund (collectively, the "Agreements"). Each year, the Board of Trustees (the "Board"), including a majority of the independent Trustees, is required to determine whether to renew the Agreements. The Investment Company Act of 1940, as amended, requires that the Board request and evaluate, and that the Managers provide, such information as may be reasonably necessary to evaluate the terms of the Agreements. The Board employs an independent consultant to prepare a report that provides information, including comparative information that the Board requests for that purpose. In addition to in-person meetings focused on this evaluation, the Board receives information throughout the year regarding Fund services, fees, expenses and performance.

The Adviser, Sub-Adviser and the independent consultant provided information to the Board on the following factors: (i) the nature, quality and extent of the Managers' services, (ii) the investment performance of the Fund and the Managers, (iii) the fees and expenses of the Fund, including comparative expense information, (iv) the profitability of the Managers and their affiliates, including an analysis of the cost of providing services, (v) whether economies of scale are realized as the Fund grows and whether fee levels reflect these economies of scale for Fund investors and (vi) other benefits to the Managers from their relationship with the Fund. The Board was aware that there are alternatives to retaining the Managers. Outlined below is a summary of the principal information considered by the Board as well as the Board's conclusions.

Nature, Quality and Extent of Services. The Board considered information about the nature, quality and extent of the services provided to the Fund and information regarding the Managers' key personnel who provide such services. The Sub-Adviser's duties include providing the Fund with the services of the portfolio manager and the Sub-Adviser's investment team, who provide research, analysis and other advisory services in regard to the Fund's investments; securities trading services; oversight of third-party service providers; monitoring compliance with applicable Fund policies and procedures and adherence to the Fund's investment restrictions; and risk management. The Managers are responsible for providing certain administrative services to the Fund as well. Those services include providing and supervising all administrative and clerical personnel who are necessary in order to provide effective corporate administration for the Fund; compiling and maintaining records with respect to the Fund's operations; preparing and filing reports required by the Securities and Exchange Commission; preparing periodic reports regarding the operations of the Fund for its shareholders; preparing proxy materials for shareholder meetings; and preparing the registration statements required by Federal and state securities laws for the sale of the Fund's shares. The Managers also provide the Fund with office space, facilities and equipment.

The Board also considered the quality of the services provided and the quality of the Managers' resources that are available to the Fund. The Board took account of the fact that the Sub-Adviser has had over fifty years of experience as an investment adviser and that its assets under management rank it among the top mutual fund managers in the United States. The Board evaluated the Sub-Adviser's advisory, administrative, accounting, legal, compliance services and risk management, and information the Board has received regarding the experience and professional qualifications of the Managers' key personnel and the size and functions of its staff. In its evaluation of the quality of the portfolio management services provided, the Board considered the experience of Rajeev Bhaman, the portfolio manager for the Fund, and the Sub-Adviser's investment team and analysts. The Board members also considered the totality of their experiences with the Managers as directors or trustees of the Fund and other funds advised by the Managers. The Board considered information regarding the quality of services provided by affiliates of the Managers, which its members have become knowledgeable about in connection with the renewal of the Fund's service agreements. The Board concluded, in light of the Managers' experience, reputation, personnel, operations and resources that the Fund benefits from the services provided under the Agreement.

Investment Performance of the Fund, the Adviser and the Sub-Adviser. Throughout the year, the Manager provided information on the investment performance of the Fund, including comparative performance information. The Board also reviewed information, prepared by the Manager and by the independent consultant, comparing the Fund's historical performance to relevant market indices and to the performance of other world stock funds underlying variable insurance products. The Board considered that the Fund outperformed its performance category median during the one-, three-, five- and ten-year periods. The Board also considered that the Fund ranked in the second quintile of its performance category for the one-, three-, five- and ten-year periods.

Costs of Services by the Adviser. The Board reviewed the fees paid to the Manager and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and other world stock funds underlying variable insurance products. In reviewing the fees and expenses charged to the VA funds, the Board considered the Manager's assertion that, because there is much greater disparity in the fees and services that may be provided by a manager to a VA fund as opposed to a retail fund, when comparing the expenses of the various VA funds to those of retail funds, it is most appropriate to focus on total expenses (rather than on the management fees). Accordingly, while the Board reviewed and considered all expenses, it focused on total expenses. The Board considered that the Fund's total expenses were lower than its peer group median and its category median. The Board also considered that the Fund's contractual management fee was lower than its respective peer group median and category median. Within the total asset range of \$2 billion to \$5 billion, the Fund's effective rate was lower than its peer group median and category median. The Manager has voluntarily agreed to limit the Fund's total annual operating expenses so that those expenses, as percentages of daily net assets, will not exceed the annual rate of 1.00% for Non-Service and Class 3 shares and 1.25% for Service and Class 4 shares. This voluntary expense limitation may be amended or withdrawn at any time without prior notice to shareholders.

Economies of Scale and Profits Realized by the Adviser and Sub-Adviser. The Board considered information regarding the Manager's costs in serving as the Fund's investment adviser, including the costs associated with the personnel and systems necessary to manage the Fund, and information regarding the Manager's profitability from its relationship with the Fund. The Board reviewed whether the Manager may realize economies of scale in managing and supporting the Fund. The Board noted that the Fund currently has management fee breakpoints, which are intended to share with Fund shareholders economies of scale that may exist as the Fund's assets grow. Based on the Board's evaluation, the Managers agreed to a revised breakpoint schedule as negotiated by the Board that, effective November 1, 2013, includes an additional fee breakpoint of 0.58% for assets in excess of \$5 billion.

Other Benefits to the Managers. In addition to considering the profits realized by the Managers, the Board considered information that was provided regarding the direct and indirect benefits the Managers receive as a result of their relationship with the Fund, including compensation paid to the Managers' affiliates and research provided to the Adviser in connection with permissible brokerage arrangements (soft dollar arrangements). The Board also considered that the Managers must be able to pay and retain experienced professional personnel at competitive rates to provide quality services to the Fund.

Conclusions. These factors were also considered by the independent Trustees meeting separately from the full Board, assisted by experienced counsel to the Fund and to the independent Trustees. Fund counsel and the independent Trustees' counsel are independent of the Managers within the meaning and intent of the Securities and Exchange Commission Rules.

Based on its review of the information it received and its evaluations described above, the Board, including a majority of the independent Trustees, decided to continue the Agreements through August 31, 2014. In arriving at its decision, the Board did not identify any factor or factors as being more important than others, but considered all of the above information, and considered the terms and conditions of the Agreements, including the management fees, in light of all the surrounding circumstances.

PORTFOLIO PROXY VOTING POLICIES AND PROCEDURES; UPDATES TO STATEMENTS OF INVESTMENTS

Unaudited

The Fund has adopted Portfolio Proxy Voting Policies and Procedures under which the Fund votes proxies relating to securities (“portfolio proxies”) held by the Fund. A description of the Fund’s Portfolio Proxy Voting Policies and Procedures is available (i) without charge, upon request, by calling the Fund toll-free at 1.800.CALL OPP (225.5677), (ii) on the Fund’s website at oppenheimerfunds.com, and (iii) on the SEC’s website at www.sec.gov. In addition, the Fund is required to file Form N-PX, with its complete proxy voting record for the 12 months ended June 30th, no later than August 31st of each year. The Fund’s voting record is available (i) without charge, upon request, by calling the Fund toll-free at 1.800.CALL OPP (225.5677), and (ii) in the Form N-PX filing on the SEC’s website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first quarter and the third quarter of each fiscal year on Form N-Q. The Fund’s Form N-Q filings are available on the SEC’s website at www.sec.gov. Those forms may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Name, Position(s) Held with the Fund, Length of Service, Year of Birth	Principal Occupation(s) During the Past 5 Years; Other Trusteeships/Directorships Held; Number of Portfolios in the Fund Complex Currently Overseen
INDEPENDENT TRUSTEES	<i>The address of each Trustee in the chart below is 6803 S. Tucson Way, Centennial, Colorado 80112-3924. Each Trustee serves for an indefinite term, or until his or her resignation, retirement, death or removal.</i>
Sam Freedman, Chairman of the Board of Trustees (since 2013) and Trustee (since 1996) Year of Birth: 1940	Director of Colorado UplIFT (charitable organization) (since September 1984). Counsel	K&L Gates LLP

Before investing, investors should carefully consider a fund's investment objectives, risks, charges and expenses. Fund prospectuses and summary prospectuses contain this and other information about the funds, and may be obtained by asking your financial advisor, or calling us at 1.800.988.8287. Read prospectuses and summary prospectuses carefully before investing.
