

protect against illnesses with disability income insurance

You work to provide a continuous income so that you can enjoy life. Don't let an illness or injury result in uncertainty for you and your family. For adults of all ages, illness causes more disabilities (approximately 90% more) than accidents.* No one plans for heart attacks, cancer, or any other number of illnesses. Once they happen, future insurability is eliminated or impaired to some degree. Protect yourself and your family now by purchasing disability income insurance before one of these disabling illnesses affects your ability to earn an income:
