CALVERT VP NASDAQ 100 INDEX PORTFOLIO

Portfolio within Calvert Variable Products, Inc.

Managed by Ameritas Investment Partners, Inc., Subadvisor

INVESTMENT PERFORMANCE

For the year ended December 31, 2013, the Calvert VP Nasdaq 100 Index Portfolio returned 36.05% compared with 36.92% for the Nasdaq 100 Index. The slight under-performance relative to the Index was largely attributable to fees and operating expenses, which the Index does not have.

INVESTMENT CLIMATE

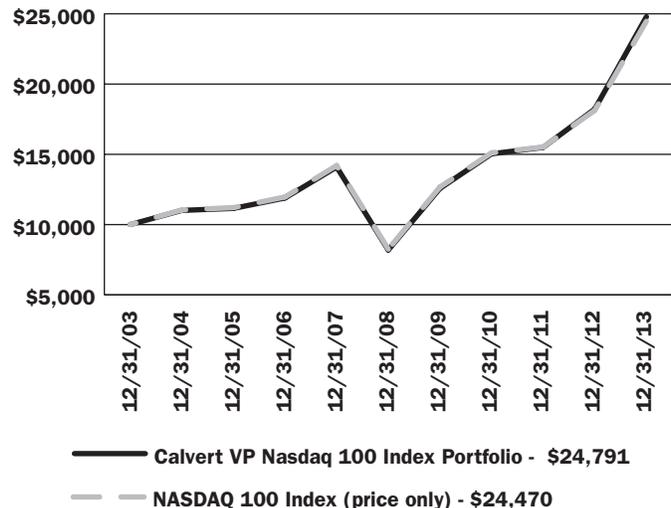

The equity markets earned strong positive returns in 2013 as the economic recovery in the United States continued to take hold. Within the domestic universe, small-cap stocks provided the highest return in 2013, up 38.82% as measured by the Russell 2000 Index. Mid-cap and large-cap stocks provided slightly lower returns, with the S&P Midcap 400 Index and S&P 500 Index returning 33.50% and 32.39%, respectively. Domestic equity markets generally outperformed international equity markets, with emerging markets lagging the most.

The Federal Reserve (Fed) continued its accommodative monetary policy in 2013, which provided the fuel to power U.S. stocks higher. Domestic GDP growth improved steadily throughout the year, and inflation remained under control. The housing market continued its recovery—the resulting increases in homeowner equity and consumer confidence and decreases in default rates should benefit the banking industry. Lastly, the combination of increased home values and the rise in the stock market had a significant positive impact on household net worth.

PORTFOLIO STRATEGY

As an index fund, the Portfolio seeks, as closely as possible, to replicate the holdings and match the performance of the Nasdaq 100 Index. In pursuit of this objective, the Portfolio employs a passive management approach to replicate the Index.

Comparison of change in value of a hypothetical \$10,000 investment.

AVERAGE ANNUAL TOTAL RETURN (period ended 12.31.13)

| | |
|-----------|--------|
| One year | 36.05% |
| Five year | 24.80% |
| Ten year | 9.50% |

The performance data shown represents past performance, does not guarantee future results and assumes reinvestment of all dividends and distributions. All performance data reflects fee waivers and/or expense limitations, if any are in effect; in their absence performance would be lower. See Note B in Notes to Financial Statements. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

Visit www.calvert.com/institutional-VP-performance.html for current performance data. The gross expense ratio from the current prospectus for the Portfolio is 0.63%. This number may vary from the expense ratio shown elsewhere in this report because it is based on a different time period and, if applicable, does not include fee or expense waivers. The performance data and expense ratio reflect deduction of Portfolio operating expenses, but do not reflect charges and expenses imposed under the variable annuity or life insurance contract.

At year-end, the Index’s largest exposures were to the Information Technology and Consumer Discretionary sectors, at 55.1% and 20.3%, respectively. It also had a significant allocation to Health Care, at 13.1%. The smallest exposure was to Materials, at less than 1% of the Index.

The top-performing sectors in the Index were Health Care, up 66.9%, and Telecommunication, up 48.4%. The weakest-performing sectors were Industrials, up 17.7%, and Materials, up 29.1%.

During 2013, the Portfolio continued to meet its investment objective of closely tracking the total return of the Index. Market fluctuation and cash flows may cause the Portfolio to hold a slightly different weighting than the Index. Since the Nasdaq 100 Index is not an actual mutual fund, it is not possible to invest directly in it. Unlike the Index, the Portfolio incurs operating expenses.

OUTLOOK

Entering 2014, we believe the outlook for equities is mildly positive. The economy continues to recover and corporate earnings remain strong, although valuations have become more stretched and the market is pricing in a fairly optimistic outlook already. The unemployment rate is declining and the economy will not suffer the same fiscal drag that it did last year from the sequester.

The Fed has begun the tapering process. And while the tone in Washington has improved slightly, the government’s inability to function properly does remain a concern. In addition, economic growth in Europe remains sluggish and China’s growth appears to have slowed.

That said, the Fed anticipates keeping short-term rates low for an extended period of time after it ends its asset-purchasing program. Although it is unlikely that 2014 will provide returns similar to 2013, Fed policies should provide a positive backdrop for equities in the year ahead.

January 2014

| ECONOMIC SECTORS | % OF TOTAL INVESTMENTS |
|----------------------------------|-------------------------------|
| Consumer Discretionary | 20.3% |
| Consumer Staples | 4.6% |
| Exchange Traded Products..... | 1.1% |
| Government | 0.2% |
| Health Care | 13.1% |
| Industrials | 1.8% |
| Information Technology | 55.1% |
| Materials | 0.3% |
| Short-Term Investments | 1.8% |
| Telecommunication Services | 1.7% |
| Total | <u>100%</u> |

SHAREHOLDER EXPENSE EXAMPLE

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

This Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (July 1, 2013 to December 31, 2013).

Note: Expenses do not reflect charges and expenses of the variable annuity or variable universal life contract.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare the 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

| | BEGINNING ACCOUNT VALUE 7/1/13 | ENDING ACCOUNT VALUE 12/31/13 | EXPENSES PAID DURING PERIOD* 7/1/13 - 12/31/13 |
|--|--------------------------------------|-------------------------------------|--|
| Actual | \$1,000.00 | \$1,240.54 | \$3.35 |
| Hypothetical (5% return per year before expenses) | \$1,000.00 | \$1,022.22 | \$3.02 |

* Expenses are equal to the Fund’s annualized expense ratio of 0.59%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors of Calvert Variable Products, Inc. and Shareholders of Calvert VP Nasdaq 100 Index Portfolio:

We have audited the accompanying statement of net assets of the Calvert VP Nasdaq 100 Index Portfolio (the “Portfolio”), a series of Calvert Variable Products, Inc., as of December 31, 2013, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Portfolio’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2013, by correspondence with the custodian and brokers or by performing other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Calvert VP Nasdaq 100 Index Portfolio as of December 31, 2013, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS

NOTE A — SIGNIFICANT ACCOUNTING POLICIES

General: Calvert VP Nasdaq 100 Index Portfolio (the “Portfolio”), a series of Calvert Variable Products, Inc. (the “Fund”), is registered under the Investment Company Act of 1940 as a non-diversified, open-end management investment company. The Fund is comprised of twelve separate portfolios. The operations of each series of the Fund are accounted for separately. Shares of the Portfolio are sold without sales charge to affiliated and unaffiliated insurance companies for allocation to certain of their variable separate accounts.

Security Valuation: Net asset value per share is determined every business day as of the close of the regular session of the New York Stock Exchange (generally 4:00 p.m. Eastern time). The Portfolio uses independent pricing services approved by the Board of Directors (“the Board”) to value its investments wherever possible. Investments for which market quotations are not available or deemed not reliable are fair valued in good faith under the direction of the Board.

The Board has adopted Valuation Procedures (the “Procedures”) to determine the fair value of securities and other financial instruments for which market prices are not readily available or which may not be reliably priced. The Board has delegated the day-to-day responsibility for determining the fair value of assets of the Portfolio to Calvert Investment Management, Inc. (the “Advisor” or “Calvert”) and has provided these Procedures to govern Calvert in its valuation duties.

Calvert has chartered an internal Valuation Committee to oversee the implementation of these Procedures and to assist it in carrying out the valuation responsibilities that the Board has delegated.

The Valuation Committee meets on a regular basis to review illiquid securities and other investments which may not have readily available market prices. The Valuation Committee’s fair valuation determinations are subject to review, approval and ratification by the Board at its next regularly scheduled meeting covering the calendar quarter in which the fair valuation was determined.

The Valuation Committee utilizes various methods to measure the fair value of the Portfolio’s investments. Generally Accepted Accounting Principles (GAAP) establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Portfolio’s own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an investment’s assigned level within the hierarchy during the period. There were no such transfers during the period. Valuation techniques used to value the Portfolio’s investments by major category are as follows:

Equity securities, including restricted securities, for which market quotations are readily available, are valued at the last reported sale price or official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. In the event there were no sales during the day or closing prices are not available, securities are valued at the last quoted bid price or may be valued using the last available price and are categorized as Level 2 in the hierarchy. Foreign securities are valued based on quotations from the principal market in which

such securities are normally traded. If events occur after the close of the principal market in which foreign securities are traded, and before the close of business of the Portfolio, that are expected to materially affect the value of those securities, then they are valued at their fair value taking these events into account. For restricted securities and private placements where observable inputs are limited, assumptions about market activity and risk are used and such securities are categorized as Level 3 in the hierarchy.

Exchange traded products are valued at the official closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy.

Debt securities, including restricted securities, are valued based on evaluated prices received from independent pricing services or from dealers who make markets in such securities. For U.S. government obligations, pricing services utilize matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices and such securities are generally categorized as Level 2 in the hierarchy. Short-term securities of sufficient credit quality with remaining maturities of sixty days or less for which quotations are not readily available are valued at amortized cost, which approximates fair value, and are categorized as Level 2 in the hierarchy.

When independent prices are unavailable or unreliable, debt securities may be valued utilizing pricing matrices which consider similar factors that would be used by independent pricing services. These are generally categorized as Level 2 in the hierarchy but may be Level 3 depending on the circumstances.

If a market value cannot be determined for a security using the methodologies described above, or if, in the good faith opinion of the Advisor, the market value does not constitute a readily available market quotation, or if a significant event has occurred that would materially affect the value of the security, the security will be fair valued as determined in good faith by the Valuation Committee.

The Valuation Committee considers a number of factors, including significant unobservable valuation inputs when arriving at fair value. It considers all significant facts that are reasonably available and relevant to the determination of fair value.

The Valuation Committee primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. When more appropriate, the fund may employ an income-based or cost approach. An income-based valuation approach discounts anticipated future cash flows of the investment to calculate a present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. A cost based approach is based on the amount that currently would be required to replace the service capacity of an asset (current replacement cost). From the seller's perspective, the price that would be received for the asset is determined based on the cost to a buyer to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence.

The values assigned to fair value investments are based on available information and do not necessarily represent amounts that might ultimately be realized. Further, due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed, and the differences could be material. The Valuation Committee employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis and reviews of any related market activity.

At December 31, 2013, no securities were fair valued in good faith under the direction of the Board.

The following is a summary of the inputs used to value the Portfolio's net assets as of December 31, 2013:

| INVESTMENTS IN SECURITIES | VALUATION INPUTS | | | TOTAL |
|--------------------------------------|---------------------|--------------------|----------|---------------------|
| | LEVEL 1 | LEVEL 2 | LEVEL 3 | |
| Equity securities* | \$78,267,909 | — | — | \$78,267,909 |
| Exchange traded products | 923,580 | — | — | 923,580 |
| U.S. government obligations | — | \$199,934 | — | 199,934 |
| Other debt obligations | — | 1,428,913 | — | 1,428,913 |
| TOTAL | <u>\$79,191,489</u> | <u>\$1,628,847</u> | <u>—</u> | <u>\$80,820,336</u> |
| Other financial instruments** | <u>\$35,458</u> | <u>—</u> | <u>—</u> | <u>\$35,458</u> |

* For further breakdown of equity securities by industry type, please refer to the Statement of Net Assets.

** Other financial instruments are derivative instruments not reflected in the Total Investments in the Statement of Net Assets, such as futures, which are valued at the unrealized appreciation/depreciation on the instrument.

Futures Contracts: The Portfolio may purchase and sell futures contracts, when, in the judgment of the Advisor, such a position acts as a hedge, or to provide equity market exposure to the Portfolio's uncommitted cash balances. The Portfolio may not enter into futures contracts for the purpose of speculation or leverage. These futures contracts may include, but are not limited to, market index futures contracts. The Portfolio is subject to market risk in the normal course of pursuing its investment objectives and may use futures contracts to hedge against changes in the value of securities. The Portfolio may enter into futures contracts agreeing to buy or sell a financial instrument for a set price at a future date. Initial margin deposits of either cash or securities as required by the broker are made upon entering into the contract. While the contract is open, daily variation margin payments are made to or received from the broker reflecting the daily change in market value of the contract and are recorded for financial reporting purposes as unrealized gains or losses by the Portfolio. When a futures contract is closed, a realized gain or loss is recorded equal to the difference between the opening and closing value of the contract. The risks associated with entering into futures contracts may include the possible illiquidity of the secondary market which would limit the Portfolio's ability to close out a futures contract prior to the settlement date, an imperfect correlation between the value of the contracts and the underlying financial instruments, or that the counterparty will fail to perform its obligations under the contracts' terms. Futures contracts are designed by boards of trade which are designated "contracts markets" by the Commodities Futures Trading Commission. Futures contracts trade on the contracts markets in a manner that is similar to the way a stock trades on a stock exchange and the boards of trade, through their clearing corporations, guarantee the futures contracts against default. As a result, there is minimal counterparty credit risk to the Portfolio. During the year, futures contracts were used to hedge the lack of equity market exposure inherent in a cash position. The Portfolio's futures contracts at year end are presented in the Statement of Net Assets.

During the year, the Portfolio invested in E-Mini NASDAQ 100 Index futures. The volume of outstanding contracts has varied throughout the year with a weighted average of 10 contracts and \$290,522 weighted average notional value.

Security Transactions and Investment Income: Security transactions are accounted for on trade date. Realized gains and losses are recorded on an identified cost basis and may include proceeds from litigation. Dividend income is recorded on the ex-dividend date or, in the case of dividends on certain foreign securities, as soon as the Portfolio is informed of the ex-dividend date. Withholding taxes on foreign dividends have been provided for in accordance with the Portfolio's understanding of the applicable country's tax rules and rates. Distributions received on securities that represent a return of capital or capital gains are recorded as a reduc-

tion of cost of investments and/or as a realized gain. Interest income, which includes amortization of premium and accretion of discount on debt securities, is accrued as earned.

Foreign Currency Transactions: The Portfolio's accounting records are maintained in U.S. dollars. For valuation of assets and liabilities on each date of net asset value determination, foreign denominations are converted into U.S. dollars using the current exchange rate. Security transactions, income and expenses are translated at the prevailing rate of exchange on the date of the event. The effect of changes in foreign exchange rates on securities is included with the net realized and unrealized gain or loss on investments.

Distributions to Shareholders: Distributions to shareholders are recorded by the Portfolio on ex-dividend date. Dividends from net investment income and distributions from net realized capital gains, if any, are paid at least annually. Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles; accordingly, periodic reclassifications are made within the Portfolio's capital accounts to reflect income and gains available for distribution under income tax regulations.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes: No provision for federal income or excise tax is required since the Portfolio intends to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable earnings.

Management has analyzed the Portfolio's tax positions taken for all open federal income tax years and has concluded that no provision for federal income tax is required in the Portfolio's financial statements. A Portfolio's federal tax return is subject to examination by the Internal Revenue Service for a period of three years.

NOTE B — RELATED PARTY TRANSACTIONS

Calvert Investment Management, Inc. (the "Advisor") is wholly-owned by Calvert Investments, Inc., which is indirectly wholly-owned by Ameritas Mutual Holding Company. The Advisor provides investment advisory services and pays the salaries and fees of officers and Directors of the Fund who are employees of the Advisor or its affiliates. For its services, the Advisor receives an annual fee, payable monthly, of .35% of the Portfolio's average daily net assets. Under the terms of the agreement, \$21,506 was payable at year end. In addition, \$15,174 was payable at year end for operating expenses paid by the Advisor during December 2013.

The Advisor has contractually agreed to limit net annual portfolio operating expenses through April 30, 2014. The contractual expense cap is .69%. For the purpose of this expense limit, operating expenses do not include interest expense, brokerage commissions, taxes and extraordinary expenses. This expense limitation does not limit acquired fund fees and expenses, if any.

Calvert Investment Administrative Services, Inc., an affiliate of the Advisor, provides administrative services to the Portfolio for an annual fee, payable monthly, of .10% of the Portfolio's average daily net assets. Under the terms of the agreement, \$6,144 was payable at year end.

Calvert Investment Services, Inc. ("CIS"), an affiliate of the Advisor, acts as shareholder servicing agent for the Portfolio. For its services, CIS received a fee of \$5,559 for the year ended December 31, 2013. Under the terms of the agreement, \$459 was payable at year end. Boston Financial Data Services, Inc. is the transfer and dividend disbursing agent.

Each Director of the Fund who is not an employee of the Advisor or its affiliates receives a fee of \$1,500 for each Board and Committee meeting attended plus an annual fee of \$40,000. Committee chairs receive an additional \$5,000 annual retainer. Directors' fees are allocated to each of the portfolios served.

NOTE C — INVESTMENT ACTIVITY AND TAX INFORMATION

During the year, the cost of purchases and proceeds from sales of investments, other than short-term securities, were \$9,207,536 and \$13,702,727, respectively.

The tax character of dividends and distributions paid during the years ended December 31, 2013 and December 31, 2012 was as follows:

| Distributions paid from: | 2013 | 2012 |
|--------------------------|-------------|-------------|
| Ordinary income | \$947,258 | \$587,107 |
| Long-term capital gain | 1,430,726 | 3,633,611 |
| Total | \$2,377,984 | \$4,220,718 |

As of December 31, 2013, the tax basis components of distributable earnings/(accumulated losses) and the federal tax cost were as follows:

| | |
|--|--------------|
| Unrealized appreciation | \$34,637,504 |
| Unrealized (depreciation) | (223,425) |
| Net unrealized appreciation/(depreciation) | \$34,414,079 |
| Undistributed ordinary income | \$354,505 |
| Undistributed long-term capital gain | \$1,647,851 |
| Federal income tax cost of investments | \$46,406,257 |

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the statement of net assets are primarily due to temporary book-tax differences that will reverse in a subsequent period. These differences are due to wash sales and Section 1256 contracts.

NOTE D — LINE OF CREDIT

A financing agreement is in place with the Calvert Funds and State Street Corporation (“SSC”). Under the agreement, SSC provides an unsecured line of credit facility, in the aggregate amount of \$50 million (\$25 million committed and \$25 million uncommitted), accessible by the Funds for temporary or emergency purposes only. Borrowings under the committed facility bear interest at the higher of the London Interbank Offered Rate (LIBOR) or the overnight Federal Funds Rate plus 1.25% per annum. A commitment fee of .11% per annum is incurred on the unused portion of the committed facility, which is allocated to all participating funds. The Portfolio had no borrowings under the agreement during the year ended December 31, 2013.

NOTE E — SUBSEQUENT EVENTS

In preparing the financial statements as of December 31, 2013, no subsequent events or transactions occurred that would have required recognition or disclosure in these financial statements.

NOTICE TO SHAREHOLDERS (UNAUDITED)

For the year ended December 31, 2013, the Portfolio considers 90.4% of the ordinary dividends paid during the year as eligible for the corporate dividends received deduction in accordance with Section 854 of the Internal Revenue Code and \$1,430,726 of the long-term capital gain distributions paid during the year as capital gain dividend in accordance with Section 852(b)(3)(C) of the Internal Revenue Code.

See notes to financial highlights.

A Total expenses do not reflect amounts reimbursed and/or waived by the Advisor or reductions from expense offset arrangements. Expenses before offsets reflect expenses after reimbursement and/or waiver by the Advisor but prior to reductions from expense offset arrangements. Net expenses are net of all reductions and represent the net expenses paid by the portfolio.

** Total return is not annualized for periods of less than one year and does not reflect charges and expenses of the variable annuity or variable universal life contract.*

See notes to financial statements.

EXPLANATION OF FINANCIAL TABLES

SCHEDULE OF INVESTMENTS

The Schedule of Investments is a snapshot of all securities held in the fund at their market value, on the last day of the reporting period. Securities are listed by asset type (e.g., common stock, corporate bonds, U.S. government obligations) and may be further broken down into sub-groups and by industry classification.

STATEMENT OF ASSETS AND LIABILITIES

The Statement of Assets and Liabilities is often referred to as the fund's balance sheet. It lists the value of what the fund owns, is due and owes on the last day of the reporting period. The fund's assets include the market value of securities owned, cash, receivables for securities sold and shareholder subscriptions, and receivables for dividends and interest payments that have been earned, but not yet received. The fund's liabilities typically include payables for securities purchased and shareholder redemptions, and expenses owed but not yet paid. The statement also reports the fund's net asset value (NAV) per share on the last day of the reporting period. The NAV is calculated by dividing the fund's net assets (assets minus liabilities) by the number of shares outstanding. This statement is accompanied by a Schedule of Investments. Alternatively, if certain conditions are met, a Statement of Net Assets may be presented in lieu of this statement and the Schedule of Investments.

STATEMENT OF NET ASSETS

The Statement of Net Assets provides a detailed list of the fund's holdings, including each security's market value on the last day of the reporting period. The Statement of Net Assets includes a Schedule of Investments. Other assets are added and other liabilities subtracted from the investments total to calculate the fund's net assets. Finally, net assets are divided by the outstanding shares of the fund to arrive at its share price, or Net Asset Value (NAV) per share.

At the end of the Statement of Net Assets is a table displaying the composition of the fund's net assets. Paid in Capital is the money invested by shareholders and represents the bulk of net assets. Undistributed Net Investment Income and Accumulated Net Realized Gains usually approximate the amounts the fund had available to distribute to shareholders as of the statement date. Accumulated Realized Losses will appear as negative balances. Unrealized Appreciation (Depreciation) is the difference between the market value of the fund's investments and their cost, and reflects the gains (losses) that would be realized if the fund were to sell all of its investments at their statement-date values.

STATEMENT OF OPERATIONS

The Statement of Operations summarizes the fund's investment income earned and expenses incurred in operating the fund. Investment income includes dividends earned from stocks and interest earned from interest-bearing securities in the fund. Expenses incurred in operating the fund include the advisory fee paid to the investment advisor, administrative services fees, distribution plan expenses (if applicable), transfer agent fees, shareholder servicing expenses, custodial, legal, and audit fees, and the printing and postage expenses related to shareholder reports. Expense offsets (fees paid indirectly) are also shown. Credits earned from offset arrangements are used to reduce the fund's expenses. This statement also shows net gains (losses) realized on the sale of investments and the increase or decrease in the unrealized appreciation (depreciation) on investments held during the period.

STATEMENT OF CHANGES IN NET ASSETS

The Statement of Changes in Net Assets shows how the fund's total net assets changed during the two most recent reporting periods. Changes in the fund's net assets are attributable to investment operations, distributions and capital share transactions.

The Operations section of the report summarizes information detailed in the Statement of Operations. The Distribution section shows the dividend and capital gain distributions made to shareholders. The amounts

shown as distributions in this section may not match the net investment income and realized gains amounts shown in the Operations section because distributions are determined on a tax basis and certain investments or transactions may be treated differently for financial statement and tax purposes. The Capital Share Transactions section shows the amount shareholders invested in the fund, either by purchasing shares or by reinvesting distributions, and the amounts redeemed. The corresponding numbers of shares issued, reinvested and redeemed are shown at the end of the report.

FINANCIAL HIGHLIGHTS

The Financial Highlights table provides a per-share breakdown by class of the components that affect the fund's net asset value for current and past reporting periods. The table provides total return, total distributions, expense ratios, portfolio turnover and net assets for the applicable period. Total return is a measure of a fund's performance that encompasses all elements of return: dividends, capital gain distributions and changes in net asset value. Total return is the change in value of an investment over a given period, assuming reinvestment of any dividends and capital gain distributions, expressed as a percentage of the initial investment. Total distributions include distributions from net investment income and net realized gains. Long-term gains are earned on securities held in the fund more than one year. Short-term gains, on the sale of securities held less than one year, are treated as ordinary dividend income for tax purposes. The expense ratio is a fund's cost of doing business, expressed as a percentage of net assets. These expenses directly reduce returns to shareholders. Portfolio turnover measures the trading activity in a fund's investment portfolio – how often securities are bought and sold by a fund. Portfolio turnover is affected by market conditions, changes in the size of the fund, the nature of the fund's investments and the investment style of the portfolio manager.

PROXY VOTING

The Proxy Voting Guidelines that the Portfolio uses to determine how to vote proxies relating to portfolio securities is provided as an Appendix to the Fund's Statement of Additional Information. The Statement of Additional Information can be obtained free of charge by calling the Fund at 1-800-368-2745, by visiting the Calvert website at www.calvert.com or by visiting the SEC's website at www.sec.gov.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available by calling the Fund, by visiting the Calvert website at www.calvert.com or visiting the SEC's website at www.sec.gov.

AVAILABILITY OF QUARTERLY PORTFOLIO HOLDINGS

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC's website at www.sec.gov. The Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

BASIS FOR BOARD'S APPROVAL OF INVESTMENT ADVISORY CONTRACTS

At a meeting held on December 11, 2013, the Board of Directors, and by a separate vote, the disinterested Directors, approved the continuance of the Investment Advisory Agreement between the Portfolio and the Advisor and the Investment Subadvisory Agreement between the Advisor and the Subadvisor with respect to the Portfolio.

In evaluating the Investment Advisory Agreement, the Board considered a variety of information relating to the Portfolio and the Advisor. The disinterested Directors reviewed a report prepared by the Advisor regarding various services provided to the Portfolio by the Advisor and its affiliates. Such report included, among other

data, information regarding the Advisor's personnel and the Advisor's revenue and cost of providing services to the Portfolio, and a separate report prepared by an independent third party, which provided a statistical analysis comparing the Portfolio's investment performance, expenses, and fees to comparable mutual funds.

The disinterested Directors were separately represented by independent legal counsel with respect to their consideration of the reapproval of the Investment Advisory Agreement and the Investment Subadvisory Agreement. Prior to voting, the disinterested Directors reviewed the proposed continuance of the Investment Advisory Agreement and Investment Subadvisory Agreement with management and also met in private sessions with their counsel at which no representatives of management were present.

In the course of its deliberations regarding the Investment Advisory Agreement, the Board considered the following factors, among others: the nature, extent and quality of the services provided by the Advisor, including the personnel providing such services; the Advisor's financial condition; the level and method of computing the Portfolio's advisory fee; comparative performance, fee and expense information for the Portfolio; the profitability of the Calvert Family of Funds to the Advisor and its affiliates; the allocation of the Portfolio's brokerage, including the Advisor's process for monitoring "best execution"; the direct and indirect benefits, if any, derived by the Advisor and its affiliates from their relationship with the Portfolio; the effect of the Portfolio's growth and size on the Portfolio's performance and expenses; the Advisor's compliance programs and policies; the Advisor's performance of substantially similar duties for other funds; and any possible conflicts of interest.

In considering the nature, extent and quality of the services provided by the Advisor under the Investment Advisory Agreement, the Board reviewed information provided by the Advisor relating to its operations and personnel, including, among other information, biographical information on the Advisor's supervisory and professional staff and descriptions of its organizational and management structure. The Board also took into account similar information provided periodically throughout the previous year by the Advisor, as well as the Board's familiarity with the Advisor's management through Board of Directors' meetings, discussions and other reports. The Board considered the Advisor's current level of staffing and overall resources. The Board also noted that it reviewed on a quarterly basis information regarding the Advisor's compliance with applicable policies and procedures, including those related to personal investing. The Advisor's administrative capabilities, including its ability to supervise the other service providers for the Portfolio, were also considered. The Board discussed the Advisor's effectiveness in monitoring the performance of the Subadvisor and its timeliness in responding to performance issues. The Board observed that the scope of services provided by the Advisor generally had expanded over time as a result of regulatory, market and other changes. The Board took into consideration, among other factors, the effectiveness of the Portfolio's and Advisor's processes, policies and procedures and the Advisor's personnel. The Board also took into account, among other items, periodic reports received from the Advisor over the past year concerning the Advisor's ongoing review and enhancement of certain processes, policies and procedures of the Portfolio and the Advisor. The Board concluded that it was satisfied with the nature, extent and quality of services provided to the Portfolio by the Advisor under the Investment Advisory Agreement.

In considering the Portfolio's performance, the Board noted that it reviewed on a quarterly basis detailed information about the Portfolio's performance results, portfolio composition and investment strategies. In addition, the Board took into account overall financial market conditions. The Board also reviewed various comparative data provided to it in connection with its consideration of the renewal of the Investment Advisory Agreement, including, among other information, a comparison of the Portfolio's total return with its Lipper index and with that of other mutual funds deemed to be in its peer universe by an independent third party in its report. This comparison indicated that the Portfolio performed below the median of its peer universe for the one-year period ended June 30, 2013 and above the median of its peer universe for the three- and five-year periods ended June 30, 2013. The data also indicated that the Portfolio underperformed its Lipper index for the one-year period ended June 30, 2013 and outperformed its Lipper index for the three- and five-year periods ended June 30, 2013. Based upon its review, the Board concluded that the Portfolio's performance

was satisfactory relative to the performance of passively-managed funds that track the same benchmark index as does the Portfolio.

In considering the Portfolio's fees and expenses, the Board compared the Portfolio's fees and total expense ratio with various comparative data for the funds in its peer group. Among other findings, the data indicated that the Portfolio's advisory fee was at the median of its peer group and that total expenses were above the median of its peer group. The Board noted that the allocation of advisory and administrative fees may vary among the Portfolio's peer group. The Board also took into account the Advisor's current undertaking to maintain expense limitations for the Portfolio. The Board noted that the Advisor paid the Subadvisor's subadvisory fee under the Investment Subadvisory Agreement with respect to the Portfolio. The Board also took into account management's discussion of the Portfolio's expenses and certain factors that affected the level of such expenses, including the current size of the Portfolio. Based upon its review, the Board determined that the advisory fee was reasonable in view of the quality of services received by the Portfolio from the Advisor and the other factors considered.

The Board reviewed the Advisor's profitability on a portfolio-by-portfolio basis. In reviewing the overall profitability of the advisory fee to the Portfolio's Advisor, the Board also considered the fact that affiliates of the Advisor provided shareholder servicing and administrative services to the Portfolio for which they received compensation. The information considered by the Board included Calvert's operating profit margin information both before and after tax expenses with respect to the services that the Advisor and its affiliates provided to the Calvert Family of Funds complex. The Board reviewed the profitability of the Advisor's relationship with the Portfolio in terms of the total amount of annual advisory fees it received with respect to the Portfolio and whether the Advisor had the financial wherewithal to continue to provide services to the Portfolio. The Board also considered that the Advisor derived benefits to its reputation and other indirect benefits from its relationship with the Portfolio. In addition, the Board took into account that affiliates of the Advisor may benefit from certain indirect tax benefits relating to dividend received deductions and foreign tax credits. The Board also noted that the Advisor paid the subadvisory fee to the Subadvisor, an affiliate of the Advisor. Based upon its review, the Board concluded that the Advisor's and its affiliates' level of profitability from their relationship with the Portfolio was reasonable.

The Board considered the effect of the Portfolio's current size and potential growth on its performance and fees. Although the Portfolio's advisory fee did not contain breakpoints that would reduce the advisory fee rate on assets above specified asset levels, the Board noted that if the Portfolio's assets increased over time, the Portfolio might realize other economies of scale if assets increased proportionally more than certain other expenses. The Board also noted that given the Portfolio's current level of assets, the Portfolio would be unlikely to recognize economies of scale by implementing a breakpoint in the advisory fee at this time.

In reapproving the Investment Advisory Agreement, the Board, including the disinterested Directors, did not identify any single factor as controlling, and each Director may have attributed different weight to various factors.

In evaluating the Investment Subadvisory Agreement, the disinterested Directors reviewed information provided by the Subadvisor relating to its operations, personnel, investment philosophy, strategies and techniques. Among other information, the Subadvisor provided biographical information on portfolio management and other professional staff, performance information for itself, and descriptions of its investment philosophies, strategies and techniques, organizational and management structures and brokerage policies and practices.

The Board reapproved the Investment Subadvisory Agreement between the Subadvisor and the Advisor based on a number of factors relating to the Subadvisor's ability to perform under the Investment Subadvisory Agreement. In the course of its deliberations, the Board evaluated, among other factors: the nature, extent and the quality of the services to be provided by the Subadvisor; the Subadvisor's management style and long-term performance record; the Portfolio's performance record and the Subadvisor's performance in employing

its investment strategies; the Subadvisor's current level of staffing and its overall resources; the qualifications and experience of the Subadvisor's personnel; the Subadvisor's financial condition with respect to its ability to perform the services required under the Investment Subadvisory Agreement; the Subadvisor's risk management processes; the Subadvisor's compliance systems, including those related to personal investing; and any disciplinary history. Based upon its review, the Board concluded that it was satisfied with the nature, extent and quality of services provided to the Portfolio by the Subadvisor under the Investment Subadvisory Agreement.

As noted above, the Board considered, among other information, the Portfolio's performance during the one-, three- and five-year periods ended June 30, 2013 as compared to the Portfolio's peer universe and noted that it reviewed on a quarterly basis detailed information about the Portfolio's performance results, portfolio composition and investment strategies. The Board noted the Advisor's expertise and resources in monitoring the performance, investment style and risk adjusted performance of the Subadvisor.

In considering the cost of services to be provided by the Subadvisor and the profitability to the Subadvisor of its relationship with the Portfolio, the Board noted that the Advisor and Subadvisor were affiliated and the subadvisory fee under the Investment Subadvisory Agreement was paid by the Advisor out of the advisory fee that the Advisor received under the Investment Advisory Agreement. Based upon its review, the Board determined that the subadvisory fee was reasonable in view of the quality of services received by the Portfolio from the Subadvisor and the other factors considered. Because the Advisor would pay the Subadvisor's subadvisory fee, the cost of services to be provided by the Subadvisor and the level of profitability to the Subadvisor from its relationship with the Portfolio were not material factors in the Board's deliberations. For similar reasons, the Board did not consider the potential economies of scale in the Subadvisor's management of the Portfolio to be a material factor in its consideration.

In reapproving the Investment Subadvisory Agreement, the Board, including the disinterested Directors, did not identify any single factor as controlling, and each Director may have attributed different weight to various factors.

CONCLUSIONS

The Board reached the following conclusions regarding the Investment Advisory Agreement and the Investment Subadvisory Agreement, among others: (a) the Advisor has demonstrated that it possesses the capability and resources to perform the duties required of it under the Investment Advisory Agreement; (b) the Subadvisor is qualified to manage the Portfolio's assets in accordance with the Portfolio's investment objective and policies; (c) the Advisor and Subadvisor maintain appropriate compliance programs; (d) the Subadvisor is likely to execute its investment strategies consistently over time; (e) the performance of the Portfolio is satisfactory relative to the performance of passively-managed funds that track the same benchmark index as does the Portfolio; and (f) the Portfolio's advisory and subadvisory fees are reasonable in view of the quality of services received by the Portfolio from the Advisor and Subadvisor and the other factors considered. Based on its conclusions, the Board determined that reapproval of the Investment Advisory Agreement and the Investment Subadvisory Agreement would be in the best interests of the Portfolio and its shareholders.

Protecting Your Privacy

Your Relationship with us is Important.

Please take time to review this statement about our privacy policies with existing and former customers. We do not disclose any non-public personal information about our customers to anyone, except as permitted by law.

YOUR PRIVACY IS A TOP PRIORITY.

You have shared personal and financial information with us:

- Information we receive from you on applications or other forms, such as your name, address, social security number, assets and income; and
- Information about your transactions with us, our affiliates or others, such as your account balance, payment history and parties to transactions

We use this information to provide our products and services to you, and to assist you in achieving your financial goals. We promise to protect the security, privacy and use of your personal and financial information, including account and transaction details.

YOUR INFORMATION IS SHARED ONLY IN LIMITED WAYS AND FOR SPECIFIC PURPOSES.

We do not currently share your information with affiliates in the Calvert and the Ameritas Companies; however, we reserve the right to do so. Also, we may disclose information we collect to companies that perform administrative or marketing services on our behalf, such as transfer agents, or printers and mailers that assist us in the distribution of materials, or others as permitted by law, in order to:

- provide you with faster, more comprehensive service, and
- implement security measures and fight fraud for your continued protection

Calvert does not give or sell information about you or your accounts to any other company, individual or group. However, governmental agencies, regulatory authorities and other entities may have access to such information if permitted by law.

THE PRODUCTS AND SERVICES YOU USE ARE DELIVERED IN A SECURE ENVIRONMENT.

Whether you use automated telephone capabilities or the Internet, you can feel confident that we employ security measures that are appropriate to each technology. For more information on Internet-specific privacy and security measures, please visit our Web site at www.calvert.com.

KEEPING YOUR PERSONAL INFORMATION ACCURATE AND CURRENT IS A VITAL CONCERN.

We strive to keep your personal and financial information accurate. If you believe that our records are incorrect or out of date, please notify us by contacting Client Services at **800.368.2745** and we will make any necessary corrections.

EMPLOYEE ACCESS TO YOUR INFORMATION IS LIMITED.

Our employees have limited access to shareholder information based on their job function. This enables them to assist you in completing transactions, obtaining additional information about our products and resolving any problems that might arise. All employees are instructed to use the strict standards of care outlined in Calvert's confidentiality rules. Employees who do not conform to Calvert's confidentiality rules are subject to disciplinary actions that may include dismissal.

YOUR PRIVACY PREFERENCES WILL BE RESPECTED.

Since your financial needs change and our financial products are continually developing, we may contact you to determine if we can be of additional service to you. Most of our shareholders appreciate hearing about our new offerings and choose to continue to do so. If you have additional questions about these policies, please call Client Services at **800.368.2745**.

This notice is subject to change.

COMBINED GENERAL MAILINGS (HOUSEHOLDING)

Multiple accounts held directly with Calvert that have the same social security number will receive one mailing per household of information such as prospectuses and semi-annual and annual reports. Call Calvert client services at 800-368-2745 to request further grouping of accounts to receive fewer mailings, or to request that each account still receive a separate mailing. Separate statements will be generated for each separate account and will be mailed in one envelope for each combination above. Multiple accounts held through a broker/dealer (or other financial intermediary) that share the same household address may receive one mailing.
